

Red Riding Hood learns to cook

Red Riding Hood's grandma was a master cook. She hoped to cook as well as Grandma. So, she asked Grandma to teach her how to cook.

Grandma started with the simplest dish, FRIED EGG. On Red Riding Hood's first attempt, she burnt the egg. She felt very sad. Grandma told her "Red Riding Hood, failure is the mother of success. Keep trying, you will succeed soon!"

After Grandma's encouragement, Red Riding Hood keeps trying and succeeds finally. She continued to learn different dishes from Grandma. Gradually, she could cook many dishes on her own and finally became a famous chef!

My Robot Can Sing and Dance

(Written by Lee Cheuk Kiu Alexander, 1C)

One day after school, I found a robot in my school bag.

The robot closes his eyes and does not move. He is out of battery, so I will give him some.

With batteries, the robot becomes full of energy. He sings like a bird and dances like a butterfly.

"I am Archie. I escaped from a laboratory." the robot said. "I forgot why I was in your school bag and on the way back to the laboratory. Can I stay with you?"

I enjoy singing and dancing with Archie, and I say YES! Archie is now my family member!

The Wisdom of Old Trees

In a village by the sea, old trees stood tall
Their branches, once strong, are now bent like a shawl
A young sprout asked, "Why aren't you growing anymore?"
The trees answered with a wise response.
Compassion, little one, is our heart's true song
We give shade and wisdom, though our limbs are long
When you grow big, please show you care
For someone in need, you shall be there.

My Grandma Ran a Marathon

(Written by Chong Shing Him, 3D)

Grandma grimaced with pain because of her over-exercise and bloody blistered feet. She heard a rustle in the weeds while running in the marathon race. She saw a vicious snake!

She suddenly ran quickly. I was astonished. 'Look! She was as quick as a flash! It's unbelievable!' I had to quicken my pace to catch up with her.

She was on cloud nine but completely exhausted for her championship. I threw her over my shoulders in celebration. She got out of breath and could not wait to ask for her prize. 'You are eligible to join the marathon next year.' replied by the judge. 'Any other alternatives, please?' Grandma pleaded. Her face just cracked me up!

My Robot can Sing and Dance

(Written by Ho Tsz Long 3E)

My parents are very busy, so I want to help them. I plan to make a robot that can sweep the floor.

I needed some iron and batteries and used a tool to cut the iron into different shapes.

The robot has a round head, a rectangle body, two long arms, and two long legs. At last, I put the batteries in and turned them on.

But it bombs! So I make another one.

This time, it works, but it cannot sweep the floor. Surprisingly, it can dance and sing. It dances very silly and ugly. It sings very badly.

Finally, I decided to give the robot to my parents. My parents are so surprised and happy.

Three Little Pigs Build a Bus

(Written by Cheng Tsz Shan Jenny, 5E)

Once upon a time, three little pigs were building a bus because his mother owned a construction company, and he wanted to choose a successor; she invited the gray wolf to do the evaluation and the best one as the successor.

Brother Pig was very smart and fast. The second pig was impatient and rushed out the door when he heard what his mother said. And the lazy pig brother, this time it's different; he went to the supermarket to buy a different building.

A week later, Gray Wolf came for evaluation, and the three brothers were very nervous. The gray wolf looked at it and said, "Wow, these are all beautiful!" Then, they went to be apprentices to Cray Wolf, but Brother Pig stayed home and became the heir.

Eventually, they all became famous architects. We should learn from them and not be lazy.

Three Little Pigs Build a Bus

(Written by Chan Chin Lam Kelly, 5E)

Once upon a time, Father Pig was a famous engineer. He had Three Little Pigs, Ray, Ryan, and Roger. One day, Father Pig asked them to build a bus individually because he wanted to choose the smartest one to take over his job.

Ray and Ryan used plastic and wood to build their buses and finished speedily. However, Roger chose iron and steel to build his bus. It took a longer time to finish.

On test-drive day, Father Pig invited Grandpa Elephant to have a bus ride with him. Then, Grandpa Elephant got on Ray and Ryan's buses separately. 'Stomp! Stomp!' Soon after, their buses fell to pieces because they were too fragile. Ray and Ryan were looking at their ruined buses despairingly.

Later, Grandpa Elephant got on Roger's bus. Roger said, ' Don't worry. My bus is safe and unbreakable.' Apparently, the bus ran smoothly without any problem. Father Pig and Grandpa Elephant had a pleasant bus ride eventually.

As a result, Father Pig decides to choose Roger to take over his job because he can build a bus efficiently and effectively. Ray and Ryan realized it is essential to be patient and well-prepared when doing something. A few years later, the Three Little Pigs had become brilliant engineers.

Resilience

(Written by Choi O Yin Barcux, 6D)

Have you ever bumped into hard situations
and asked yourself, "WHY?! WHY?! WHY?!"

Have you ever thought your marks
in your exam were not that great
and asked yourself, "WHY?! WHY?! WHY?!"

Have you lost in a competition
and asked yourself, "WHY?! WHY?! WHY?!"

Today, right here, right now, it's all going to change.

Founded hard situations,

Think "HOW" to solve them.

Found that your marks are not that great,

Think "HOW" to improve yourself.

Lost in a competition,

Think "HOW" to train yourself.

Because at that time, you were a baby,

You kept failing and failing to walk,

You only thought "HOW" to succeed.

This is what is called resilience!

My Grandma ran a marathon

Grandpa always dreamed of running a marathon, but unfortunately passed away before he could do it. To fulfil his dream, grandma, at 80 years old decided to run a marathon on herself. Concerned on her well-being, I watched as she committed to daily practice, saying, "I need to train more to honour my husband."

On marathon day ,I notice that grandma was among the fewer older participants . The 42-kilometre course looked exhausting, yet grandma remained confident and determined. When the race started, everyone was running in the speed of lightning, while grandma took her time slow. Although she felt fatigued, she never gave up and was remained positive.

After 5 hours, Grandma finally crossed the finish line ,greeted by cheers from everyone. Although She did not get a ranking but fulfilled Grandpa's dream. Our family was so proud and over the moon of her remarkable achievement and unwavering determination.

Joy

In a sunlit room where laughter flows,
Childhood dreams in vibrant shows,
Dinosaur toys with colors bright,
Roar and stomp through day and night.

Paper airplanes that soar beneath the sun,
In the playground where we run.
Ice cream melting down our hands.
Building castles in the sands.

Family gathered, hearts aglow,
Together we share the joy we know.
Together we sing, together we play.
In the warmth of love, what a beautiful day.

Giggles dance like leaves in spring,
Every moment treasures that memories bring.
Through ups and downs, every day and night.
Joy is here to keep us alright.
